THE HATCHET BURIED.

No More Cruel Yaqui War in Sonora.

They Meet the Mexicans Sign For Peace.

Final Settlement of the Yaqui Indian Troubles Across the Border in Mexico.

The Yaqui treaty has been signed. Now those people will go to work instead of spending their spare time fighting.

About four hundred of the tribe all armed headed by Tetabiate, their chief, met at Ortiz Sunday with General Torres, Gov. Corral and other representatives of the Mexican government after marching in thirty-five miles and heard the treaty read.

The Indians were met out five miles from the station by Col. Peinado and his command who escorted their former foes into show goodwill etc. Before they arrived a drunken Mexican firing his pistol over their heads came near breaking up peace negotiations as the suspicious Yaquis made ready to fight for they imagined this was a signal to begin their slaughter. Col. Peinado promptly rode over the fellow and ordered him under arrest and soon they were moving again. The Yaqui, as they marched in with three or four belts of cartridges around them presented a fine appearance and their movements were more graceful and soldierlike than those of the national soldiers. Nearly every Yaqui was armed with guns that had been captured from the Mexican soldiers at one time or another.

The treaty was read by Secretary of State Celedonio Ortiz, and agreed to by the Indians.

Extensive preparations had been made to properly receive the surrendering Indians. A large pavilion had been erected in which was conducted the formal ceremony. Other pavilions had been erected on the outskirts of the town when the Yaquis later went to cook their meals of flour, sugar, beans and other large quantities of provisions which were issued to them. When everything was in readiness, the three Mexican commissioners appointed to sign the treaty and the three Yaqui commissioners, Chief Tetabiate, his secretary, Juan Espinoza, and Tosto Villas his sub-chief, mounted the stand and after hearing the document read signed it, with a number of prominent Mexican and American business men as witnesses among the Americans being Capt. L. W. Mix, P. B. Chisem and Allen T. Bird.

Addresses were made by General Torres and Gov. Corral. After giving hearty cheers for "La Republica and President Diaz, the Yaquis all marched out and as they did Vice-Gov. Figueroa, issued \$2 each to the privates and \$5 each to the chiefs. What was left was distributed among the three Yaqui commissioners each receiving about \$70.

Col. Francisco Peinado then delivered an enthusiastic address and three cheers were given to President Diaz, General Torres, Gov. Corral and Tetabiate.

A grand fiesta was commenced and a grand good time was had.

The settlement of this war will be a great thing for Sonora as it will open one of the richest mining and agricultural countries in the world.

SONORA NEWS.

Mining and Other Items from Our Sister State.

"El Progreso," the weekly paper published at Altar, completed its fifth year of existence on the fifth inst.

Chas. J. Wimple, manager for the E. R. Hutchison Mining Co. at Bonau-

cita, Sonora, left Nogales Sunday for the mines.

James F. Sullivan, manager of the Golden Valley Mining Co., of La Dura, is attending legal business in Hermosillo.

Señor Arturo Guzman has been appointed judge of the first instance of the Altar district, in place of Señor Robles, deceased.

"El Heraldo" is the name of a new weekly newspaper published at Hermosillo by Messrs. Bernal & Chiapa. It is a new weekly of four pages.

At Altar the city authorities are making some needed improvements on the city plaza, which are greatly needed to beautify the sights of the city.

R. L. Daniels, formerly conductor on the Sonora railway, through Col. J. H. Hampson has been appointed superintendent of the San Salvador railway.

Mr. J. R. Southworth is at Guaymas getting up a book entitled "Illustrated Sonora," which is destined to illustrate the advantages offered by Sonora to enterprising men.

Messrs. Fred S. James and Gilbert M. Weeks of Chicago, president and director respectively of the National Mexican Mining & Developing Co., are spending a few days at the company's property at El Ploano, in the Altar district.

Mr. J. R. Southworth, publisher of "Sonora Ilustrado," is in Nogales. Mr. S. cannot say enough in praise of the government of Sonora for their enterprising support and courteous treatment, which they have uniformly given him, especially is this true of Secretary of State Celedonio Ortiz, who has given him valuable assistance in connection with his book.

W. B. Welton has received the contract to wire the city of Hermosillo for electric lights. The General Electric Company of the City of Mexico, represented by Mr. Thompson is putting in the plant. Mr. Welton will go down in about ten days. Arc lights will be placed all over the city and dark corners will be unknown. Gradually Sonora is coming to the front in modern improvements.

There is considerable excitement in the San Marcial district thirty miles south of Ortiz over the discovery of some rich gold quartz in an old mine that has been held by one old Mexican for the last sixteen years until recently, when W. H. Hutchison of Chicago, purchased it and opened up the rich vein. The ore is "lousy" with wire gold and hangs together in great chunks by the wire gold. It is the richest gold strike ever made in Sonora and the new camp promises to rival anything in the world. Mr. Hutchison will be down from Chicago next week to arrange for putting in machinery for working the ore at once. P. B. Chisem of Guaymas has some claims around the rich mine that are showing up well. W. A. Whipple, a mining expert from Chicago is over there now.

LIVE STOCK ITEMS.

Pusch, Zellweger & Bernard shipped this week from Tucson to Denver 500 cows.

These strong south winds denote early rains much to the elation of the cattlemen.

Cattle business along the Mexican border will be rather slack if that Dingley bill becomes a law.

Several thousand head of Sonora cattle were crossed into Arizona at Buenos Ayres the first of the week.

THE VIDETTE is establishing a live stock department in its columns and will run live stock advertisements with or without cuts at reasonable rates.

Jan. F. Gerald and W. T. McNelly went to Geronimo this morning to attend to the delivery of cattle there on the 15th inst.—Globe Silver Belt.

A. G. Pendleton returned yesterday from his ranch. He reports all the cattlemen of Pleasant Valley and vicinity are engaged in gathering and driving cattle. About 6000 head have been sold from that section this spring.—Globe Silver Belt.

Over 50,000 head of cattle were passed through the Nogales customs house during the month of April. This shows in a measure the large movement of stock, as the most of it was resold and shipped to the northern ranges as feeders.

FLOWERS GALORE.

Nogales Leads in Hot House Plants.

Madison Risinger has built a stone house 30x12 feet in which he keeps thousands of flowering plants and vines. There is not a hot-house in Arizona to compare with it and Nogales should feel proud of it.

Mr. Risinger has worked early and late to make his plants grow successfully and he now has the finest assortment of plants in the territory.

New varieties are continually added and not a week goes by that he does not receive some choice gem from eastern hot houses.

A lot of new plants received last week from New Orleans caught the reporter's eye, among which were some small palms. One could put in many hours each day viewing these beautiful flowers and plants without becoming tired, so pretty and fresh they seem.

This new building is provided with plenty of glass windows and has a cloth roof on one side and iron on the other. Other buildings will be added from time to time as necessity demands.
